Product Description

Stainless Steel Double Serrated Uncapping Knife with Wooden Handle of Honey Uncapping Tools

Descriptions of Uncapping Tools:

Material	Stainless Steel
Length	40cm
With	3.5cm
Thickness	3mm

Uncapping tools are used for removing the thin beeswax covering off the honey frames to expose honey. Only once honey is exposed can it be extracted. Our uncapping tools and equipment range from the handheld uncapping knife to electric uncapping knife.

When it's time to uncap your honey you will need a fast easy way to remove the laying of wax over the honey. You can use a Capping Scratcher or you can make the process much easier by using a Uncapping Knife. Any uncapping tool which you choose from us can give a wonderful uncapping experience. For the electric uncapping knife, It operates in the voltage range of 110V, 220-250v, The plug is the standard plug for USA, Europe, Australia and New Zealand and so on. Thanks for letting us know the standard plug which satisfy you when you order from us.
