## Product Description

### Natural 70% Pure Propolis Powder Honey Bee Products For Beekeeping

#### About propolis:

A sticky resin material that bees collect from trees and other vegetation. Bees use it to reduce the size of the beehive's entrance and encase foreign objects. Propolis contains waxes, resins, balms, oils and pollen. Due to its antibacterial properties, it can be used in alternative medicine (tannins, ointments, creams, etc.)

#### Smell

Propolis has a special aromatic smell of resin. It tastes slightly bitter and astringent, and has a spicy and pungent taste. It is particularly sticky when chewed and gives off a frankincense-like fragrance when burned.
