Product Description

Electric Press Beeswax Foundation Machine for making beeswax foundation sheets Beekeeping tools

Usage and detail of beeswax foundation machine

1. The comb foundation mill is used for embossing plain and pure beeswax sheets with the exact cell outline of the honeycomb for fixing into the frames of a beehive. Such embossed comb foundation sheet from a base for the bees to build up new combs.
2. This helps to conserve the energies of bees to secure drawn-out combs of adequate cell-size duly related to natural body-size of local races of bees for.
3. The main structure of the comb foundation mill consist of two rollers fixed horizontally close together in a cast iron frame.
4. The surface of these rollers has a honeycomb cell design which embosses the comb foundation sheet.

Place of Origin	China
